

## #TIMBERCOMPETITIONSZA

John & Amy would like to live in a modern and comfortable home with their three children. Have a go at designing a modern sustainable timber construction house, get access to innovative building material producers and suppliers. Present your project at the next Wood Conference, Cape Town & you may win a trip to Europe!

### NETWORKING

Get connected with other South African architects & students of architecture as well as producers of building materials.

### INTERNATIONAL TEAM

Experience, solutions and inspiration from South Africa, Switzerland, Czech Republic, Austria and many other corners of the world.

### SUSTAINABILITY

We are all responsible for the future of our planet, do a bit and start designing sustainable architecture!

### POPULAR BUILDING MATERIAL

CLT is earning recognition around the world as a construction material not only for residential housing but also in large public and commercial projects. Learn more about this modern construction material!

### WIN & TRAVEL

Spend one week in Europe experiencing CLT production, visiting a building site and an architect to gain knowledge on sustainable construction.

### BE PART OF THE CHANGE!

Explore ways of making South African homes modern, comfortable, sustainable, and yet affordable!

#TIMBERCOMPETITIONSZA

# WHO?

Master level **university students** and **young professionals** under 35 years of age.

# WHAT?

Design a timber structure home for John & Amy starting with a **basic draft** followed by a **detailed project and presentation**. Explore the advantages of CLT constructions and other sustainable materials.

# WHEN?

October 2018: **Deadline for applications**  
October 2018: **Workshop**  
January 2019: **Deadline for concepts**  
February 2019: **Wood Conference**  
April 2019: **Competition finalization**  
June 2019: **Winners Awards**  
July/August 2019: **Internship in Europe**

# QUESTIONS & ANSWERS

Visit our **homepage** to find out more about conditions of the competition or contact the organizing team via e-mail or **Facebook**. The section **Q&A** will be regularly updated.

# ABOUT THE COMPETITION

Participants are invited to design a conceptual draft of a timber structure home for a South African family with three kids. There are no restrictions as to the size of the plot or to the budget. It is solely up to the author to decide about the requirements of the family.

The objective of the competition is to encourage general interest in modern sustainable construction and offer young architects an opportunity to explore pleasant and environmentally friendly housing designs. At the same time, the competition should open innovative construction concepts to the South African public, especially young families.

The Timber Competition is organized by the Wood Student Foundation (in cooperation with the Hout Bay House research project team) and HWZ International South Africa. This scheme will provide the participants with direct access to innovative sustainable building materials & concepts, e.g. cross laminated timber (CLT).

Follow the Timber Competition on Facebook and Instagram for more information and inspiration!
